

PRODUCT CATALOG

Candy Rush is a factory that operates within the RIM GROUP company, and it produces confectionery products, primarily chocolates, creams and cream bananas. The leading position on the market was ensured, first of all, by the quality of its products, which are available throughout the country and region, but also by constant investment in the latest technologies, as well as high standard of business that has been maintained for more than decade. This is confirmed by the world production certificates that Candy Rush has – IFS, HACCP, HALAL.

Strengthened by the SIMKA chocolate factory, which has been owned by the same group since this year, the existing production capacities are being increased, which will be able to meet all the demands of the world market, from Western Europe to Asia.
